The famous Utah powder is everything they say it is and more. Home of the greatest snow on earth! Annually, over 500 inches of snow blanket the varied slopes of Utah's mountains. *But depth isn't everything*—Utah's snow is different; it's the lightest and fluffiest snow anywhere—*it defines powder!* Snowbird has its pristine snow, limited number of skiers and no lift lines. Its ideal location and a phenomenon called "Lake Effect" has given Snowbird a reputation known worldwide. It offers GREAT terrain for any type of skiers – beginners, intermediates, as well as moguls and steeps for the experts.

We will be staying at THE LODGE AT SNOWBIRD, a luxury hotel at the base of Snowbird, with a relaxing lounge, award-winning restaurant, outdoor pool and hot tub right at the hotel. The hotel offers a complimentary wine and cheese reception and daily cookies. There are shops, stores and a short 5-minute ride to Alta outside our hotel.

THE LODGE is a short walk over to the Snowbird tram or to one of the chairlifts to start exploring their 2,500 acres and 85 runs. Powder is what defines Snowbird and Fall Liners come here for the steep and deep powder, no other reason.
