

# Cross Country Skiing and Snowshoeing

## Saturday, March 31st

Snow is just around the corner and the Social Activities Committee knows that some of us enjoy Cross Country Skiing and Snowshoeing just as much as we love the speed and thrill of downhill.

Join us as we venture to Sussex, NJ which is located at the northern tip of New Jersey, and visit the High Point Cross Country Ski Center. This is New Jersey's premiere location for cross country skiing and snowshoeing. At over 1600 feet in elevation High Point is an Alpine hollow of lakes, trees, wildlife, and sweeping vistas. Explore more than 15 km (9.32 miles) of trails for skate and classic skiing, including 60% beginner, 15% intermediate, and 25% expert trails. They also feature an 8 km (4.97 miles) trail designated for snowshoeing passing the highest point in NJ or you can blaze your own along the Appalachian Trail. You can choose a full day of cross country skiing

or snowshoeing or split the day and do half ski and half snowshoeing. An all day equipment rental and trail pass is less than \$50. There are locations nearby for lunch or we can do a tailgate and make our own.

Please contact me if you are interested in joining us on this adventure.
